- Engineered a production-ready PWA with adaptive WebRTC data channels for secure, high-speed device-to-device file transfers.

Aditya Student Photos & Attendance Apps *https://23mh1a1202.github.io/student_photos/* **2024**

- Designed full-stack platforms for cataloging large student imagery datasets and automated attendance data management.

Face Detection & Expression Tracker *https://23mh1a1202.github.io/Face-detection-and-expression-tracker/* **2025**

- Developed a real-time web application for facial detection and expression tracking using Deep Learning and computer vision models.

Personal Portfolio & SEO Impact *23mh1a1202.github.io/portfolio/* **2025-Pres.**

- Implemented effective SEO strategies; personal portfolio and web applications are successfully indexed on Google Search.

DocuKeep *https://drive.google.com/drive/folders/...* **2024**

- Built a cloud-integrated React web and Flutter mobile app with Firebase/Firestore backend and Cloudinary for media storage.

INTERNSHIPS

Vibe Coding Intern | SmartBridge & APSCHE **2026**

- Developed highly efficient, scalable UI components for complex applications using modern web stacks.

Cloud Computing & DevOps Intern | APSSDC **2025**

- Managed AWS cloud infrastructure deployment, server management, and continuous application scaling.

Full Stack (MERN) Intern | SmartBridge & APSCHE **2025**

- Built dynamic, responsive, and data-driven web applications leveraging the complete MERN stack ecosystem.
