

Ambati Lalitha Sagar

Full Stack & Flutter Developer | B.Tech Information Technology

Email: lalithasagarambati@gmail.com | GitHub: github.com/23MH1A1202

LinkedIn: [linkedin.com/in/lalithasagarambati/](https://www.linkedin.com/in/lalithasagarambati/) | Location: Andhra Pradesh, India

EDUCATION

Aditya College of Engineering and Technology

Bachelor of Technology in Information Technology | 2023 - Present

Roll No: 23MH1A1202 | Surampalem, Andhra Pradesh

TECHNICAL SKILLS

Mobile & Frontend: Flutter, Dart, Progressive Web Apps (PWA), HTML5, CSS3, JavaScript (ES6+), Tailwind

Backend & Cloud: Node.js, Express, Firebase (Auth, Firestore, Cloud Storage, Hosting), REST APIs

Developer Tools: Git, GitHub, Playwright Automation, WebRTC Peer-to-Peer, Docker basics

FEATURED PROJECTS

SmartShare - Direct P2P & Cloud File Sharing

- Built account-free file sharing with dual modes: WebRTC device-to-device and Firebase Cloud Vault.
- Live at: smartshare.alsagar.tech

DocuKeep - Secure Cloud Document Organizer

- Cross-platform Flutter mobile application backed by Firebase Authentication and Cloudinary.
- Implemented category organization, document viewer, and real-time cloud synchronisation.

Student Photos - PWA Roll Number Search

- Installable Progressive Web App with branch detection, service worker caching, and offline access.

Sagar Attendance System

- Automated web scraping pipeline with Playwright headless browser and Firebase push alerts.

HIGHLIGHTS & COMPETENCIES

- High attention to responsive design, accessibility, and high-performance animations.
- Experience with real-time peer-to-peer data channels and headless automation workflows.
